CATALOG

Truong Enterprises Inc. was founded with the goal of connecting ethnic consumers with the ethnic produce, grocery, and frozen items that were hard to find in their local mainstream supermarkets. From the day it opened its doors, Truong Enterprises has been committed to supplying an underserved, niche group of consumers with the ingredients, flavors, and tastes that have been passed down for generations. In doing so, with both integrity and perseverance, Truong Enterprises has also helped introduce genuine, ethnic products to the mainstream market while remaining devoted to serving the Asian, Hispanic, African, and Caribbean consumer base that drove their mission to deliver quality service and products. We have established reliable partnerships with oversea manufacturers and suppliers in order to better service the ethnic markets and bring the cultural integrity of products back to the United States.

With a fierce dedication to excellence and authenticity, Truong Enterprises facilitated the emergence of ethnic products in the mainstream market with the recent development of their private label brands. Brands such as Jang Produce, Mulan, Tropical Sunshine, and Elephant King stand as a promise of quality to both ethnic and mainstream consumers. Our diverse and agile teams deliver a unique understanding of the market, products, and customers out of the 90,000-square foot, state of the art, Truong Enterprises facility nestled between Chinatown and the Hispanic neighborhoods. Well-versed in the products that we represent, our team constantly looks to promote new products and educate a new generation of consumers in order to better expand our reach into uncharted pockets of the market.

In 2001, Truong Enterprises made a commitment to serve the overlooked ethnic communities. Today, we are proud to say that in the last decade, we fulfilled that promise and grew to become the leading ethnic importer and distributor in the Midwest region of the United States. Truong Enterprises is constantly growing alongside the vibrant food industry here in the Midwest. Our wide distribution network and tireless devotion to deliver genuine ethnic products works towards making ethnic foods readily accessible in every supermarket and food service location, allowing global products to reach a greater audience.
